SUMMARY

Backend-focused Software Developer with 3 years of experience building REST APIs and full-stack web applications using Django REST Framework and React. Comfortable owning features end-to-end, from data modeling to frontend integration. Looking to grow into a senior full-stack role with more ownership of system design.

SKILLS

Languages: Python, JavaScript, SQL, TypeScript (basic)

Backend: Django, Django REST Framework, FastAPI (basic), Celery

Frontend: React, Redux, HTML/CSS, Bootstrap

Databases: PostgreSQL, MySQL, Redis (basic)

Tools & Practices: Git, GitHub Actions (basic CI), Postman, Docker (basic), Agile/Scrum

Testing: Pytest, Django TestCase, unittest

EXPERIENCE

Software Developer – Vertex Web Solutions, Mohali

June 2023 – Present

- Built and maintained REST APIs for an internal inventory management system using Django REST Framework, serving ~50 internal users.
- Implemented JWT-based authentication and role-based permissions for admin, manager, and staff user types.
- Optimized slow-running reports by adding database indexes and replacing N+1 queries with `select_related/prefetch_related`, cutting average response time by 40%.
- Developed reusable React components for tabular data views and integrated them with backend APIs.
- Wrote unit and integration tests with Pytest, raising backend test coverage from 35% to 70%.

Junior Python Developer – Codeline Technologies, Chandigarh

July 2021 – May 2023

- Worked on a Django-based CRM product, building CRUD modules for leads, contacts, and deals.
- Wrote serializers, viewsets, and custom permission classes for DRF-based endpoints.
- Assisted in migrating a legacy MySQL schema to PostgreSQL with minimal downtime.
- Participated in code reviews and fixed bugs reported through a Jira-based ticketing workflow.

PROJECTS

Expense Tracker API (Personal Project)

Built a Django REST Framework API for tracking shared expenses among groups, with JWT auth, PostgreSQL, and a React frontend. Deployed on Render with a basic CI pipeline via GitHub Actions.

EDUCATION

B.Tech in Computer Science – Punjab Engineering College, Chandigarh (2017 – 2021)

CERTIFICATIONS

Django for Everybody Specialization – University of Michigan (Coursera), 2022
